

How will a price for carbon change your decisions?

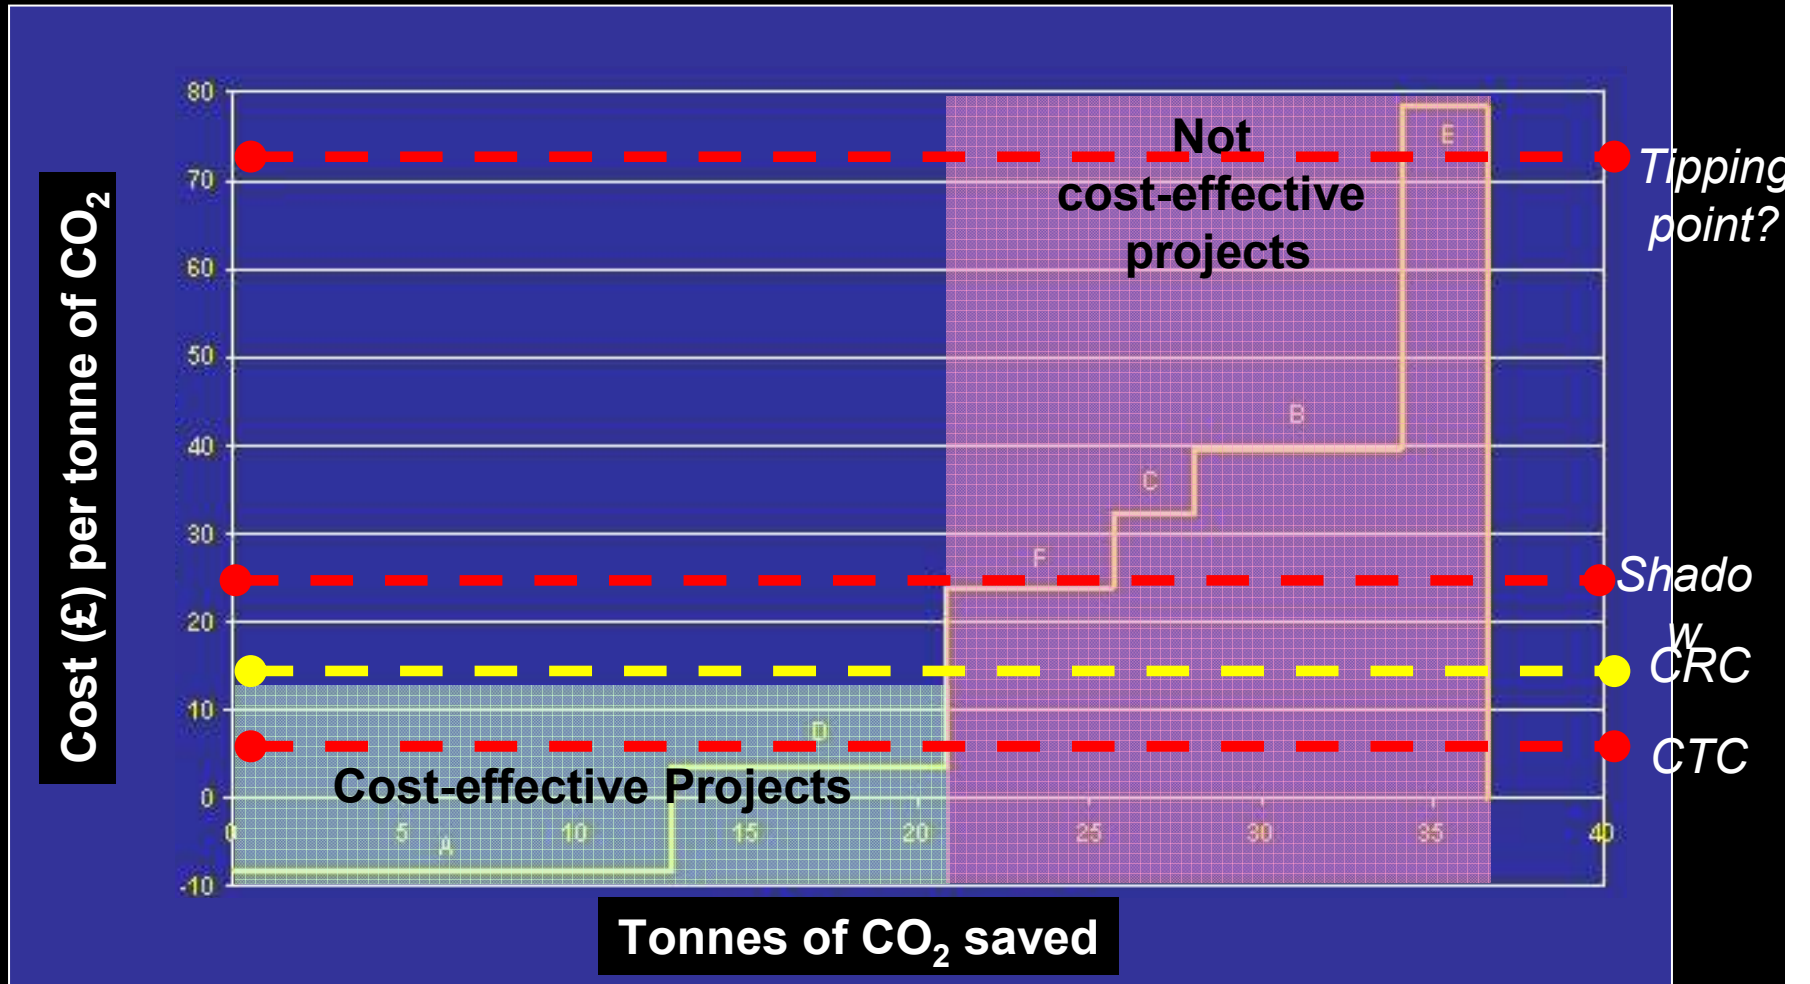

Gemma Roberts
Policy Analyst
Centre for Local Sustainability

LGiU

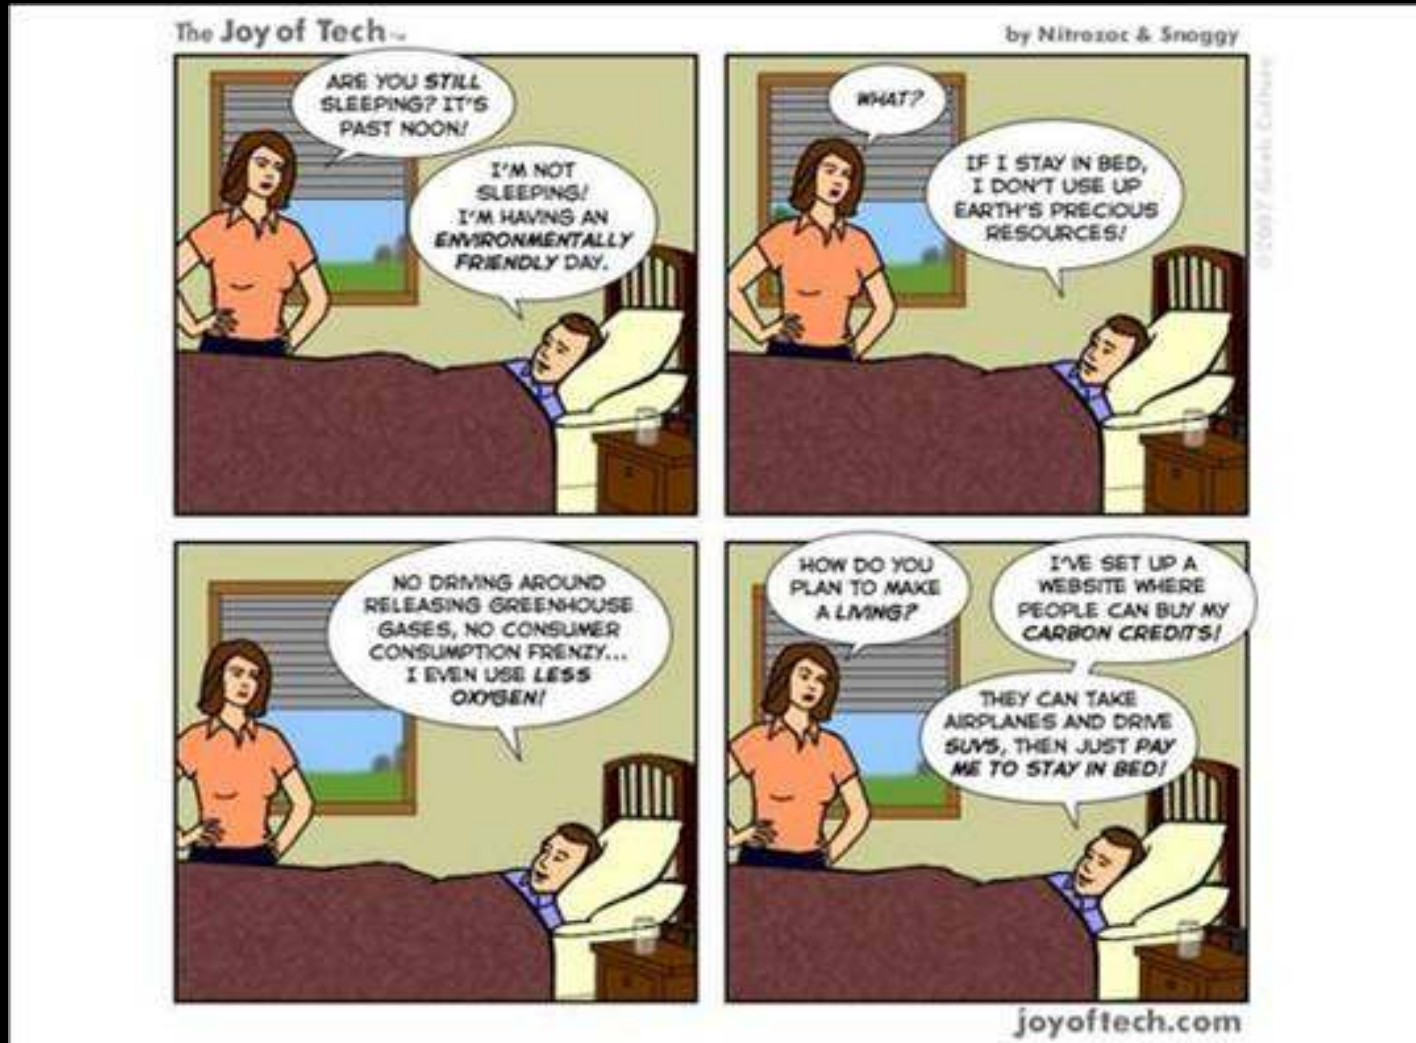

Where we started

- 34 local authorities
- Total baseline of carbon emissions 533,385.7 tonnes CO₂.
- Cap set at 5%, leaving 506,715 tonnes of carbon allowances in the market.
- Distributed at £12 per tonne, overall the market value was £6,201,050.

Prioritising carbon reduction

For the cynics...

First thoughts?

- What would you need to do to get this level of information?
- How would this change your carbon reduction plans?
