SINGLE OUTCOME AGREEMENTS

Bob Christie
Outcomes Programme Manager
Improvement Service

efficiency | quality | accountability

2008 GUIDANCE

- Area profile – evidence base
- All 15 National Outcomes considered and locally prioritised
- Local priorities expressed as outcomes
- Supported by ‘menus’ of indicators
- Targets set to 2010-11
- ‘Asks’ of Scottish Government

2008 SOAs

- Convergence and divergence
- Common outcomes and indicators – including waste and footprints
- Variations in numbers and nature of outcomes and indicators
- Interpretations of National Outcomes – e.g. sustainable places
- Size and detail

SUSTAINABLE OUTCOMES

- 11 SOAs propose reductions in area emissions / consumption, or for an activity
- 18 SOAs propose reductions in own emissions or consumption, or for an activity
- 21 SOAs use footprint indicators
- ‘Strategic ask’ for SG to work with local government in developing capacity of CP partners to address climate change

efficiency | quality | accountability

2009 GUIDANCE

- Strategic focus – not 15 strategies
- CPP governance
- CPP performance management
- Reporting – to communities
- Improving indicators for SOAs
- Improving indicators for performance management

WHAT NEXT?

- Updated SOA Guidance end-October
- Draft SOAs to SG end-February
- CPP / SG agreement end-May
- SOAs run on 3 year rolling basis with annual joint reviews
- SOAs continue to improve – engagement, performance management, indicators.

efficiency | quality | accountability

SUSTAINABLE OUTCOME AGREEMENTS?

- Awareness / capacity of CP partners?
- Strategic Environmental Assessment ?
- Sustainability assessment ?
- Best Value 2 ?
